TESTS	TESTING REQUIREMENTS/PANEL DETAILS
Thyroid Profile 5™ PLUS	Send <b>1 mL whole blood</b> in lavender-top tube (EDTA) <b>AND 1.5 mL SERUM</b> . <u>Transfer SERUM to empty redtop or plastic tube.</u> Include ice pack when shipping, but do not freeze sample. <i>Test includes CBC with differential, Chemistry Panel and Thyroid 5TM Profile.</i>
Thyroid Profile 5™	For patient on thyroid medication, please draw blood <b>4-6 hours</b> <u>after giving thyroid medication</u> , if applicable. Collect 3 to 5 mL of blood in a red top tube (RTT). Centrifuge. <u>Transfer SERUM to empty redtop or plastic tube.</u> <b>1.5 mL SERUM</b> is <b>REQUIRED</b> for the Thyroid Profile 5™. <i>Test includes T3, T4, free T3, free T4 and Thyroglobulin Autoantibody.</i>
Thyroid Profile 4 PLUS	Send <b>1 mL whole blood</b> in lavender-top tube (EDTA) <b>AND 1 mL SERUM</b> . <u>Transfer SERUM to empty redtop or plastic tube.</u> Due to the lavender-top tube Include ice pack when shipping, but do not freeze sample. Should be sent with an overnight courier. <i>Test includes CBC with differential, Chemistry Panel and Thyroid 4 Profile.</i>

Thyroid Profile 4	For patient on thyroid medication, please draw blood <b>4-6 hours</b> <u>after giving thyroid medication</u> , if applicable. Collect 3 to 5 mL of blood in a red top tube (RTT). Centrifuge. <u>Transfer SERUM to empty redtop or plastic tube.</u> <b>1 mL SERUM</b> is REQUIRED for the Thyroid Profile 4. <i>Test includes T3, T4, free T3, free T4</i>
Thyroid Profile 2	Send 0.5 mL SERUM. <i>Test includes T4 and free T4.</i>
OFA THYROID (EXPANDED PROFILE)	<b>2.5 mL SERUM</b> is REQUIRED to complete all testing. <u>Include completed &amp; signed OFA form, and a separate check for \$15.00 made out to OFA.</u> <i>Test includes T4, T3, free T3, T4AA, T3AA and OFA (FT4ed, TSH, TgAA)</i>
CBC, Differential & Chemistries	Send <b>1 mL whole blood</b> in lavender-top tube (EDTA) <b>AND 1.5 mL SERUM.</b> <u>Transfer SERUM to empty redtop or plastic tube.</u> Due to the lavender-top tube Include ice pack when shipping, but do not freeze sample. Should be sent with an overnight courier. <i>Test includes CBC with differential and Chemistry panel.</i>
Parvo and Distemper Titers	Send 0.5 mL SERUM
Rabies Vaccine Titer	Send <b>1.0 mL SERUM</b> in red top or plastic tube. <b>Note:</b> Allow 21-28 days testing time. FAVN (For Export) \$120 (Separate FAVN form required)
Heartworm Antigen	Send 0.5 mL SERUM
Nutriscan Diagnostics	SALIVARY IgA & IgM (expect results within 2 weeks) Pet should fast overnight before collecting saliva. Collect 2 mLs of saliva using the special saliva kit provided. 24 Foods (beef, corn, duck, wheat, soy, cow's milk, lamb, venison, chicken, turkey, pork, white fish, hen's egg, barley, lentils, millet, oatmeal, salmon, rabbit, rice, quinoa, potato, sweet potato, and peanut)

### Suggestions for Sending Samples:

**For Sending Serum Samples ONLY (For Thyroid testing, Titers and Heartworm testing).** You can use USPS priority 2-day. Put the serum tubes in a zip lock baggie & then wrap with bubble wrap or padded paper and put in a small sturdy box with the filled out Test Request Form. NO ICE PACK IS REQUIRED. Serum samples are viable for about 14 days at room temp (except for during extreme hot weather conditions)

**Whole Blood Samples - Lavendar Top Tubes.** Whole Blood Samples (lavender top tubes) REQUIRE an ice pack and should be sent by overnight courier (FedEx or UPS), or can be sent USPS Priority Mail (2-day) with an ice pack. This would include any tests or profiles that contain CBC testing, which requires a lavender top tube.
